

REPUBLIC OF THE PHILIPPINES
HOUSE OF REPRESENTATIVES
Quezon City

SIXTEENTH CONGRESS
First Regular Session

House Bill No. 946

Introduced by **MAGDALO Party List Representatives Gary C. Alejano**
and **Francisco Ashley L. Acedillo**

EXPLANATORY NOTE

Of recent, coffee production has become a booming industry in the country. With the introduction in the market of Starbucks, Seattle's Best, and other high-end cafe, the demand for the excellent varieties of coffee has reached unparalleled height. Even the country's pride, Figaro, has set standards of global competitiveness by opening satellite stores in Hongkong and in Southeast Asia.

True enough, the demand for coffee has outpaced harvests and production. The Makati Business Club (MBC) cited that local demand had already perked up to 55,000 tons while production stood at only 35,000 tons. Areas planted to coffee declined from about 100,000 hectares in 1986 to only 78,000 hectares at present.

In the province of Cavite, a new festivity called "Pahimis" is being touted as a coffee feast celebration in Amadeo. It is a tribute for the greatness of coffee, the town's bountiful and chief harvests. It is for this reason that the Province of Cavite and its municipalities and cities and the Cavite State University spearheaded the campaign for the creation of a Coffee Research, Development and Extension Center (CoRDEC).

The legislation envisions the creation of a center that will have the general powers and functions in line with the research, development and extension programs of the Department of Agriculture-Bureau of Agricultural Research (DA-BAR), Department of Science and Technology (DOST), Department of Trade and Industry (DTI), National Economic and Development Authority (NEDA) and the Cavite State University (CvSU). The Center will be in the forefront of educating and training all stakeholders of the coffee industry; conducting relevant researches, scientific study and feasible marketing strategies; extending technologies; and creating linkages with international organizations and other coffee development centers in other countries.

Approval of this policy measure is earnestly sought.
