

REPUBLIC OF THE PHILIPPINES
HOUSE OF REPRESENTATIVES
Quezon City

SIXTEENTH CONGRESS
First Regular Session

House Bill No. 968

Introduced by **MAGDALO Party List Representatives** Francisco Ashley L. Acedillo
and Gary C. Alejano

Explanatory Note

Government hospitals while receiving subsidy from the National Government, cannot utilize their income for their maintenance and other operating expenses. Similar to other income generating agencies of the government, these hospitals are required by law to remit their income back to the national treasury.

This practice of disallowing government hospitals from spending their income for MOOE limits the hospital's capability to expand and improve. It is precisely the primary reason that government hospitals fail to deliver quality and efficient basic health services for the people.

In view of this counterproductive system, this representation is filing this proposed measure to give more meaning to the autonomy of government hospitals in the area of physical and operational development. This can be achieved by granting them the authority to utilize their income for their maintenance and other operating expenses.

Approval of this bill, therefore, is earnestly sought.
