

REPUBLIC OF THE PHILIPPINES
HOUSE OF REPRESENTATIVES
Quezon City

SIXTEENTH CONGRESS
First Regular Session

House Bill No. 979

Introduced by **MAGDALO Party List Representatives Francisco Ashley L. Acedillo and Gary C. Alejano**

EXPLANATORY NOTE

It has always been the goal of the government to increase and enhance revenue collection and to put a stop to tax fraud and corruption. However, there seems to be an absence of a simple yet effective manner of easily verifying and/or authenticating all receipts, invoices, permits, licenses, clearances and official papers issued by all government agencies and instrumentalities, Government Owned and Controlled Corporations (GOCCs) and Local Government Units (LGUs) as well as private businesses, that will ensure full accounting and proper documentation of all business and commercial transactions in the country.

In this regard, there is a need to establish and implement a simple yet fool-proof way of authenticating and verifying the correctness of transactions even by a mere naked eye examination to substantially enhance and improve government revenue without increasing taxes.

This bill proposes the use of specialized or watermarked security paper on which all receipts, invoices, permits, licenses, clearances and all other official papers and documents issued by both the government as well as private entities shall be printed. Consequently, the adoption of such legislation will greatly enhance and strengthen tax monitoring and collection if the use of security watermarked paper for all receipts and other documents will be made a mandatory requirement for all commercial and business transactions.

It should be noted that the National Tax Research Center (NTRC) of the Department of Finance (DOF), the government's lead agency when it comes to taxation, has expressed its support and full backing for the proposal to use water-marked paper in all receipts and similar documents to be issued by state agencies, local government units and even private and commercial establishments. The NTRC said this move would enhance and strengthen the tax monitoring and collection functions of the government. To quote the NTRC¹,

"It is also expected that the use of watermarked paper in all commercial and business transactions could minimize if not completely eliminate the use of falsified receipts and other documents."

In the light of all the foregoing, the immediate consideration and passage of this bill is most earnestly sought.

FRANCISCO ASHLEY L. ACEDILLO

GARY C. ALEJANO
