HOUSE BILL NO. 989

Introduced by REP. TEDDY BRAWNER BAGUILAT

EXPLANATORY NOTE

For a District Engineering Office to be effective, it is necessary to consider the connection of the road lines dividing the municipalities covered by the District Engineering Office as well as the convenience that it provides the constituents of the Municipalities involved and the Province as a whole.

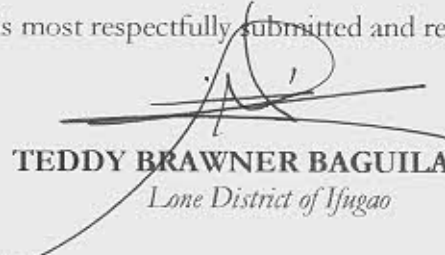

The Second District Engineering Office of Ifugao recognizes that the Road lines for the Municipality of Banaue hampers the continuity necessary in the road networks of the province.

Also, it is recognized that traveling to the Second District Engineering of Ifugao for constituents of Banaue are hampered due to the need to go around the Province of Isabela before reaching the Second District Engineering Office.

To remedy this, it is through this law that we address both problems by realigning the covered Municipalities of the Second District Engineering Office. This is done by transferring the Municipality of Banaue as part of the First District Engineering Office.

This law will allow a continuous road line for all the First and Second District Engineering Offices while shortening the travel route to the respective Engineering Office for constituents in the Municipality of Banaue.

For all the reasons provided, this bill is most respectfully submitted and requested for early approval.
