Sixteenth Congress
First Regular Session

HOUSE BILL NO. 1081

Introduced by **HONORABLE CATHERINE BARCELONA-REYES, M.D.**

EXPLANATORY NOTE

This bill seeks to establish a separate engineering district for the First District of Camarines Norte comprising the municipalities of Capalonga, Jose Panganiban, Labo, Paracale, and Santa Elena. The proposed engineering district shall be known as Camarines Norte First District Engineering Office, and shall be located in the municipality of Labo.

The First District of Camarines Norte is comprised of the municipalities of Capalonga, Jose Panganiban, Labo, Paracale and Santa Elena encompassing a combined land area of about 1 500 square kilometers. As part of Region V or the Bicol Region, a typhoon- studded area, Camarines Norte experiences hardly any dry season at all and with a very pronounced maximum rain leading to major erosions and unimproved infrastructure projects of the national government. The large area of responsibility of the lone engineering district in Camarines Norte hinders it from servicing the engineering requirements of the whole province. A separate engineering district office for the First District shall lead to a more focused program for the provision of necessary public infrastructures and engineering projects, which would hopefully bring about vibrant socio-economic, cultural and political development for the constituents of the First District of Camarines Norte.

In view of the foregoing, therefore a need to constitute another engineering district, separate and independent from the existing engineering office of the province of Camarines Norte. Hence, approval of this bill is most urgently sought.
