HOUSE BILL NO. 1750

Introduced by Honorable Damian G. Mercado

EXPLANATORY NOTE

This bill provides for the construction of a circumferential road in Panaon Island in Southern Leyte. The project connects the towns of Liloan and San Ricardo that are poles apart. Also, the proposed road project is a vital access road to San Ricardo port, a jump of point in Surigao City in Mindanao.

Panaon Island is a small island in Southern Leyte. One of the major attractions of the island is the Napantao Fish Sanctuary also known as Rio's Wall, a favourite of divers and marined biologists. Aside from this rich natural resource, the island is also a rich source of copra. Realization of this project means lesser transport expenses for the farmers as they transport their farm products.

Request approval of this bill.
