

Republic of the Philippines
HOUSE OF REPRESENTATIVES
Quezon City

SIXTEENTH CONGRESS
First Regular Session

HOUSE BILL NO. 1775

Introduced by Honorable Mar-Len Abigail S. Binay

EXPLANATORY NOTE

This house bill seeks to repeal Republic Act 2382 or the Philippine Medical Act of 1959. The intent is to have a new law regulating the practice of the medical profession, with the accompanying purpose of helping assure better availability of an improved health care system and globally competitive medical practitioners.

Among other things, this bill plans to:

- Reconstitute the current Board of Medical Examiners into a Professional Regulatory Board of Medicine under the Professional Regulatory Commission or PRC;
- Revamp the current Board of Medical Education, to reflect the significant changes in the structure of the government after RA 2382 was enacted;
- Include psychiatry in the list of subjects covered by the medical licensure examinations;
- Mandate internship training as a requirement in the completion of a doctorate degree in medicine;
- Integrate the medical profession into one national organization; and
- Promote the Continuing Professional Education (CPE) program for the enhancement of the medical profession.

I would also like to note that this bill was already approved on third and final reading during the 12th, 13th, 14th and 15th Congresses. However, lack of material time prevented the Senate from approving a counterpart measure, and thus pave the way for the necessary bicameral conference committee report and its proposed enactment into law. This bill is already a product of extensive debates and vital amendments, both in the committee and plenary levels. Speedy approval of this bill is therefore in order.
