 First Regular Session

House Bill No. **1782**

Introduced by Representatives Mariano Michael M. Velarde Jr., Jose L. Atienza Jr. and Irwin C. Tieng (BUHAY Party List)

EXPLANATORY NOTE

Cancer is one of the leading cause of mortality in the country. The estimated incidence rate is 189 persons per 100,000 Filipinos. One (1) out of five (5) Filipinos is expected to acquire cancer up to the age of 75. Despite this fact, there is no specialized care for all cancer patients in the Philippines. Although there are several specialized hospitals with complete facilities for cancer patients, the same are concentrated or centralized in Metro Manila primarily catering to the needs of cancer patients in the National Capital Region which is one of the regions with the highest cases of cancer. However, the cancer incidents are not only prevalent in the NCR. According to the 2004 Philippine Health Statistics, the other regions with the highest prevalence of reported cases are Regions 1, 3, 4, 6 and 7. Apparently, these regions do not have cancer hospitals with sufficient equipment and facilities to cater to the needs of patients suffering from cancer.

The establishment and maintenance of the cancer center would primarily benefit the people suffering from cancer and would also further enhance the noble undertaking of research in cancer, provide a state-of-the-art training of medical and technical personnel and render specialized medical services for the prevention, control and treatment of cancer.

This bill seeks to establish a national cancer center which shall be known as Philippine National Cancer Center. It shall be established in the Province of Pampanga which is accessible to the patients from the other areas with high prevalence of cancer incidents. It is strategically located to provide services and address the cancer cases in the regions with the highest reported cases particularly in Region 3.

The number of cancer patients still continue to increase, and BUHAY Hayaan Yumabong Party List intends to re-file this Bill in the hope to give assistance most specially to indigent cancer patient's nationwide.

Thus, the Party is requesting for its immediate approval.
