**EXPLANATORY NOTE**

This Bill seeks for establishment of Philippine High School for Sports in the country.

Sports and physical education plays an important role in human development. The Constitution requires the State to promote physical education and encourage sports programs, league competition, and amateur sports, including training for international competition, to foster self-discipline, team work and excellence for the development of a healthy and alert citizenry.

The establishment of Philippine High School for Sports will give the athlete-students a chance to enhance, develop and improve their athletic skills, talents and abilities.

The High School is envisioned to provide a learning environment to develop athletes to mature as self-directed, life-long learners while pursuing excellence in sports and physical education. Basic secondary education curricula will include special programs in sport sciences and physical education such as exercise and sport science, sport management, adventure sports leadership, Olympic sports and physical fitness.

Hence, the setting up of the schools is envision towards excellence in the field of sports to produce globally competitive, educated and highly-trained athletes that would bring pride and honor to our country.
