HOUSE BILL NO. 1946

Introduced by **HONORABLE BENHUR L. SALIMBANGON**

EXPLANATORY NOTE

This bill seeks to provide insurance to persons affected by accident arising from the operation or incidental to the operation of establishments, enterprises, public utilities and vehicles, buildings, machineries, and their accessories in order to provide the victims immediate relief and compensation for the loss and damage sustained.

The Philippines, over the years has been affected by several major disasters and tragedies claiming hundreds of lives and causing much destruction to lives and properties. In times of disasters and tragedies, the determination as to who should be held primarily liable for the loss of lives and damage to properties is often left unanswered and no one is held accountable and liable for the loss and destruction. As a result, families of those lives which were unnecessarily wasted and the victims themselves are always at a loss and rendered helpless.

When these tragedies happen, event organizers, owners, operators, developers and/or contractors, public utilities, business establishments, buildings, and other facilities used by or that affect the public would immediately escape liability by attributing the disaster or tragedy as an "act of God" or *force majeure* notwithstanding the fact that human error, neglect, recklessness, omission, lack of foresight, adequate knowledge, and skills are attendant to the happening or event.

In order to deter the happening of similar tragedies and disasters, a law should be passed that will hold owners and operators as well as organizers of events directly and primarily liable for injuries and damages arising from the operation or incidental to the operation of their enterprises, establishments, properties, personnel, and their accessories. Said law should also require all organizers of events, and owners and operators of business establishments, public utilities and services, buildings, machineries, and their accessories to have mandatory public liability insurance to pay for injuries and damages arising from the operation of the above. The State, under the principle of *parens patriae* can require owners of establishments to take responsibility to ensure that no damage or injury will happen to any person or property.

Therefore, approval of this bill is earnestly recommended.
