SIXTEENTH CONGRESS

First Regular Session

House Bill No. **1957**

INTRODUCED BY: REPRESENTATIVE PRYDE HENRY A. TEVES

EXPLANATORY NOTE

Not all students' needs are the same. Such needs would always depend on various aspects including one's location and environment. It is in this view that we are seeking to establish a different kind of high school which focuses on fisheries related lessons aside from the core secondary school lessons required by the Department of Education curriculum. This will surely respond to the needs of children in agricultural or fishing communities and will encourage them to become local entrepreneurs.

We firmly believe that the conversion of Basay National High School to Basay Fisheries Development High School will best serve the concerns of school children and will be a decisive step in reaching out to the needs of young people for the advancement their future.

In view of the foregoing, the passage of this bill is earnestly sought.
