HOUSE BILL NO. 2040

Introduced by **REP. EVELINA G. ESCUDERO**

EXPLANATORY NOTE

This bill is being filed to achieve a more equalized distribution of revenues, especially since most principal places of business are located in highly urbanized cities in the country like those in Metro Manila.

The current law on local taxation as provided for in the Local Government Code already recognizes and imposes the *situs* rule on taxation, however, several amendments must be proposed. And this is in the area of tax sharing between and among local government units where the principal place of business, branch or sales outlet, factory, project office, plant or plantation is located.

A hundred percent share of all sales or transactions to Local Government Units (LGUs) is proposed so long as such sales or transactions occur in the LGU concerned. This practically expunges the present thirty percent share of the LGU where the principal place of business is located.

It is submitted that with this bill, the constitutional mandate of making LGUs autonomous and self-sustaining government bodies shall be realized.

Thus, the early passage of this measure is sought.
