HOUSE BILL NO. 2114

Introduced by **REP. EVELINA G. ESCUDERO**

EXPLANATORY NOTE

This bill proposes that the PERA be subject to an automatic yearly adjustment equivalent to any increase of the annual inflation rate in the country. This makes the PERA responsive to the needs of the government worker in the event of high prices.

The Personnel Economic Relief Allowance (PERA) is a subsidy granted to all government workers as a form of assistance to help make ends meet in the face of economic crisis as well as higher prices. The original intent of the PERA in the early 1990s was as an emergency allowance to serve as a buffer against skyrocketing prices of basic commodities due to oil price hikes and instability in the Middle East.

However, higher gasoline prices, higher transportation fares and higher prices of basic commodities since the PERA's inception have proven that the PERA augments the earnings of a government worker not just as an emergency allowance, but as a major source of additional funding to be able to afford basic commodities. Further, any adjustments to the PERA will need legislation to further augment the value of the allowance versus economic reality.

In view of the foregoing circumstances, the immediate approval of this measure is earnestly urged.
