HOUSE BILL NO. **2233**

Introduced by Honorable Lucy Marie Torres-Gomez

EXPLANATORY NOTE

This bill seeks to include values formation as a separate subject in the elementary and secondary curricula.

In 2002, the Department of Education adopted a restricted Basic Education Curriculum in the elementary and secondary level which integrates values development in all learning areas in the core subjects of Filipino, English, Mathematics and Science. MAKABAYAN was also added to the elementary and secondary curricula to enable the student to process and synthesize a wide range of skills and values. This subject covers civics and culture, values and creative expressions.

By adding a separate subject in values formation and not just integrating it in the core subject, it is hoped that the teachers' effort in developing desirable values among students will be strengthened. Good manners, right conduct and values such as truth and justice, liberty and human dignity, democracy and love of country will therefore be included among the students early on in life.

To ensure that students develop proper values, attitude and knowledge to enable them to think critically and act creatively for personal, community and national development, it is imperative to include a continuing subject in values formation in the elementary and secondary curricula.

In view of the foregoing, the passage of this bill is earnestly recommended.
