HOUSE BILL NO. **2287**

Introduced by the Hon. ARNEL M. CERAIFICA

EXPLANATORY NOTE

Good health is an essential element a man needs to be a productive citizen of his country. This is a policy specifically embraced in our Constitution. Articles II, Section 15 and Article XIII, Section 11 provides, "(t) State shall protect and promote the right to health and instil health consciousness among them, "The State shall adopt an integrated and comprehensive approach to health development that shall endeavour to make essential goods, health and other social services available to all people at affordable cost".

To date, the First District of Taguig-Pateros (hereinafter referred to as " the District" for brevity) have no accessible Public Hospital which provides diagnosis, treatment and care of individuals suffering from deformity , disease, illness or injury, or those in need of surgical, obstetrical, medical or nursing care. The closest public hospital is the Taguig City Hospital. However, said hospital is situated in Taguig's Second District.

The District needs a hospital which is accessible to its constituents. The need is pressing considering that this District is often stricken by floods which make its residents highly susceptible to diseases. Transportation constraints, likewise brought about the floods, make it all the more difficult for them to go back and forth to the hospitals outside their District.

As such, these predicaments make healthcare for the people of Taguig and Pateros remote, costly, inadequate and unavailable at most times.

In light of this pressing need, this Bill seeks to alleviate the plight of the people of Taguig and Pateros by establishing a public hospital with adequate facilities for their benefit.

It is earnestly requested that this proposed measure be approved.
