HOUSE BILL NO. 2296

Introduced by **Hon. Frederick F. Abueg**

EXPLANATORY NOTE

This bill seeks to provide the inhabitants of Barangay Bunog, Iraan, Punta Baja, Campong Ulay, and Ransang of the Municipality of Jose P. Rizal, Province of Palawan, the opportunity to perfect their rights of possession over the public land areas they currently occupy, protect the State's natural resources, and support and promote the tenets of sustainable economic development in the province.

The Strategic Environmental Plan (SEP) for Palawan, otherwise known as R.A. 7611, in Section 2 thereof, declares the policy of the State to protect, develop, and conserve its natural resources towards which, it shall assist and support the implementation of plans, programs, and projects formulated to preserve and enhance the environment, and at the same time pursue the socio-economic development goals of the country. It is also State policy to support and promote the sustainable development goals for the provinces through proper conservation, utilization, and development of natural resources to provide optimum yields on a continuing basis.

The municipality of Rizal has a total land area of 127,116.033 hectares and is considered the largest town in the province. Of its 11 barangays, Ransang has the biggest land area, with 18,796.427 hectares comprising 14.44% of the municipality's total land area. Throughout the 20th and this century, the municipality of Rizal, like Palawan's other towns, has welcomed migrants from all over Palawan and other provinces. In fact, before it became a municipality, Rizal was already brimming with migrants. These migrants, along with local inhabitants, have settled in, cultivated, and made productive the municipality's vast lands, including idle public lands. For a long time, these public lands have no longer been serving their original purpose, as they have been utilized for agricultural, commercial, industrial, tourism, and other productive purposes.

The inhabitants and occupants of the above-mentioned barangays, however, face a climate of uncertainty. They are unable to secure titles over these public lands where they have been living, working, and cultivating for decades. This presents a hindrance to the town's continued growth and impedes realization of its full potential.

By converting or reclassifying certain portions of the above barangays' public lands from timberland to alienable and disposable land, while at the same time sub-classifying other portions as forestland for specific purposes, this bill aims to increase agricultural, commercial, residential, and tourism land areas available for disposition to the local populace; contribute to economic growth in general; and ensure the proper conservation and management of public lands.

In view of the foregoing, the immediate approval of this bill is earnestly requested.
