SIXTEENTH CONGRESS
First Regular Session

HOUSE BILL NO. **2422**

Introduced by Honorable LEO RAFAEL M. CUEVA

EXPLANATORY NOTE

The attached bill had passed on third and final reading in the House and was transmitted to the Senate for its consideration. However, the same did not reach for second reading due to lack of material time.

Negros Occidental is blessed with bountiful biological resources and beautiful natural resources that contribute to the provinces, aesthetic, socio-cultural, economic and ecological importance to the area. In fact the North Negros Forrest resource is the only existing forest cover, unlike others that exist on paper only.

Such natural endowments need to be protected and preserved not only for the present generation but for all generations to come. There are so many values at stake for these resources that forward-looking measures have to be undertaken now in order to preserve them from the future. It is worthy to mention that this bill has the unconditional support of all local officials in the province of Negros.

In view of the foregoing, the approval of the proposed measure is earnestly sought.
