SIXTEENTH CONGRESS

First Regular Session

House Bill No. 2634

INTRODUCED BY: REPRESENTATIVES PRYDE HENRY A. TEVES, GEORGE P. ARNAIZ AND MANUEL M. IWAY

EXPLANATORY NOTE

The most significant role of hospitals and health institutions is to provide adequate and competent medical services to the people.

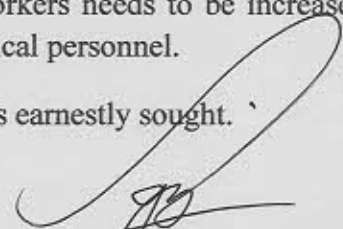

Thus, this bill seeks to increase the bed capacity of the Bayawan District Hospital in Bayawan City, Negros Oriental from fifty (50) Level I to one hundred (100) bed capacity Level III and converting the hospital into a General and Specialty Hospital (Trauma and Rehabilitation) to be known as the Bayawan General and Specialty Hospital (BGSB) and appropriating funds therefore.

With the fast increase in the population, residents from nearby municipalities travel to Bayawan City for medical treatment purposes. Consequently, a considerable number of patients are not accommodated at once and many have to wait for their turn due to lack of available space in the hospital.

The service and facilities should likewise be upgraded in order to commensurate to the proposed increase in bed capacity. Moreover, the number of workers needs to be increased in order to address the growing restlessness among the existing medical personnel.

For the foregoing reasons, immediate passage of this bill is earnestly sought.
