REPUBLIC OF THE PHILIPPINES)

HOUSE OF REPRESENTATIVES

House Bill No. 2710

Introduced by Representative Catalina "Baby" G. Leonen-Pizarro

Explanatory Note

Among the resources that should be tapped and much exploited, it is our human resource with a population around ninety-six million that could combat poverty and lead us to a significant economic growth. However, such a resource remains to be unpolished being likened to a diamond on a rough and not prepared to do battle versus our great nemesis which is poverty.

College Education then is the proper tool in building a competent, competitive and dynamic human resource. Decades ago, public elementary and high school educations have been afforded to our citizenry for free. On the contrary, tertiary education has been an elusive dream for the great majority of our countrymen due to financial woes and constraints. We have to act swiftly and it's time to offer our people access to a free college education program.

This bill seeks to institutionalize the grant of financial assistance to the underprivileged but deserving college students to defray expenses such as tuition fees, books, school supplies, transportation and other related costs. The immediate passage of this bill would be a realization of our longed and cherished dream of having a college graduate/professional in every Filipino Family, especially the poorest among the poor.
