AN ACT
INSTITUTIONALIZING GOVERNMENT SCHOLARSHIP GRANTS TO DESERVING
NATIONAL AND LOCAL GOVERNMENT EMPLOYEES, PROVIDING FUNDS FOR
THIS PURPOSE AND FOR OTHER PURPOSES

EXPLANATORY NOTE

In Philippine society, we put a premium on education since it gives our people, especially the youth, the opportunity to improve their lives. We consider a good education a passport to success in the future. And because we value education so much, it has propelled the country to become Asia's most literate nation.

Through education, we empower our people and this is exactly what this bill proposes to do by institutionalizing and strengthening an existing program for free education to deserving government employees both national and local. This is also consistent with the provisions of the 1987 Philippine Constitution which states that:

"The Civil Service Commission, as the central personnel agency of the Government, shall establish a career service and adopt measures to promote morale, efficiency, integrity, responsiveness, progressiveness, and courtesy in the civil service. It shall strengthen the merit and rewards system, integrate all human resources development programs for all levels and ranks, and institutionalize a management climate conducive to public accountability xxx." (Art. E-B, Sec. 3).

Since the Government is the largest employer in this country, it is only proper that it is able to provide a mechanism of continuing education to strengthen its

workforce together with a competitive compensation package to be able to be at par with their private sector counterparts. This is to prevent brilliant human resources and talented fresh graduates from shying away from government service.

This bill is being introduced as a humble attempt to professionalize the government sector further. It provides the grant of scholarships in the skill and training level, as well in courses leading to an academic title and graduate school programs to deserving government employees. Likewise, it presents an advantage for government as it concentrates on core areas of studies which may be the demand of the future. Hence, we expect an outstanding government bureaucracy in the years to come.

In view of the foregoing, early passage of this bill is earnestly requested.
