Sixteenth Congress
First Regular Session

HOUSE BILL NO. 3084

Introduced by Rep. Reynaldo V. Umali

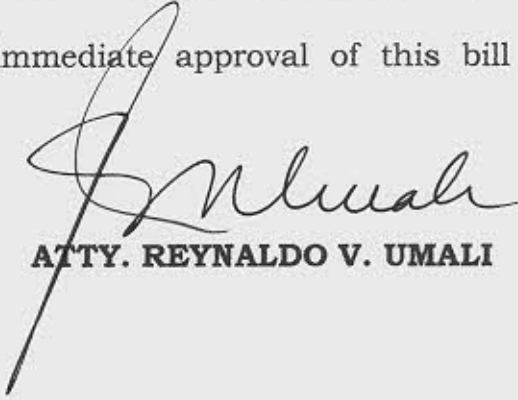

EXPLANATORY NOTE

The Community Hospital takes full charge in the delivery of medications and health assistance and providing care for patients in the least dependant setting for their needs. It provides an appropriate range of accessible health care facilities and resources designed to meet the needs of local people. Different patients stay in a Community Hospital for varying lengths of time depends on their individual needs.

The Bulalacao Community Hospital was created by Republic Act No. 6910 during the 8th Congress and is the only hospital in Bulalacao. It is a ten (10) bed hospital; however, it accommodates more than thirty (30) patients. The lack of beds and beddings adds burden to the medical staff that needs to prioritize the patients in critical and emergency cases. The provision of additional beds and beddings in the Bulalacao Community Hospital shall be a great help to the medical staff and shall redound to the health benefits of the patients therein.

This legislation aims to provide the Bulalacao Community Hospital with an increased bed capacity to create a more responsive health institution that will address the pressing medical needs of the people, more particularly the poor and the marginalized of society.

In view of the foregoing, immediate approval of this bill is earnestly sought.
