HOUSE BILL NO. **3653**

Introduced by Representative **Isagani S. Amatong**

EXPLANATORY NOTE

Sec. 1, Art. XIV, 1987 Constitution: The State shall protect and promote the right of all citizens to quality education at all levels and shall take appropriate steps to make such education accessible to all.

Our youths are the fair hope of our country. It is but imperative that they shall be afforded with the proper education, guidance and sufficient training for responsible citizenship made possible through educational institutions both public and private, religious or secular, whose duty and obligation is to impart basic knowledge, relevant information, and enhance the development of social skills and individual values and self discipline.

After the elementary level, the pursuit of the basic secondary education by the greater masses of our youth is drastically constrained due to the lack of secondary schools in strategic, and even remote rural areas. The State should provide if only to assure balanced socio-economic growth and an equitable, and vibrant democratic society.

Tinuyop is one of the interior barangays of Leon B. Postigo, Zamboanga del Norte. Most of its residents belong to the indigenous Subanen Tribe who depend much on farming as their main source of income. It is twelve (12) kilometers away from the Poblacion, where the Bacungan National High School (main) is situated.

Consequently it opened an annex high school, in barangay Tinuyop in 1994.

Considering the financial needs of the main school for its improvement and development, clientele find its annex school to be deficient especially in regard to its supervision, infrastructure, facility, and manpower allocation, inspite of burgeoning student population. There is therefore a compelling need for the annex to be created into another school from main campus and let it stand on its own and evolve into an autonomous quality secondary school, more responsive to the needs of its own student population in the aforesaid locality.

The annex school represented by its head teacher and staff in cooperation with officials of the main school are willing to comply with all the requirements of the Department of Education.

Considering the province of Zamboanga del Norte, according to the National Statistics Coordination Board in 2012 as the 5th financially impaired province, and considering further that four (4) towns in the third district were included among the top twenty unprogressive/underdeveloped municipalities, pundits find the passage of this bill obviously an urgent necessity.
