HOUSE BILL NO. 3860

Introduced by Rep. Winston "Winnie" Castelo

EXPLANATORY NOTE

Basic social and government services depend largely on the role of barangay officials who are at the forefront of public service and their time, energy, and resources are channelled to resolve the everyday concerns of barangay folks. Said officials dedicate their life's work to ensure that all those who walk into their offices to bring before them their domestic and social issues are well attended to. They are the bridges that gap household and neighborhood misunderstandings. They make possible the amicable settlement of community members having disputes with one another. They cheer up and bring comfort to those afflicted by misfortunes.

The bill is underpinned by the fact that there are opportunity costs when barangay officials perform their duties and responsibilities that go beyond the call of their duties in order to bring to their constituents the highest form of service that they call for.

An increase on the allowance of barangay officials would just be a small gesture on the part of the government to recognize their essential role as agents of government to effect national development.

The immediate passage of this bill is most fervently prayed for.

HOUSE BILL NO. _____

Introduced by Rep. Winston "Winnie" Castelo

EXPLANATORY NOTE

Senior citizens have immensely contributed to nation building and dedicated their lives' work to the betterment of the community. For the longest time, they have been paying their taxes but have not recouped in material terms what is due them. Fact is, they continue to give without reproach and still work hard to improve their lot and that of their loved ones.

Unfortunately, existing laws have not amply addressed the various needs of senior citizens. Owing to their physical constitution, growing frail and sickly on account of their old age, their health requirements become more extensive and expensive.

It is for this reason that free Philhealth coverage is being sought on behalf of the indigent senior citizens. This free health coverage should be a gesture of the government to acknowledge their hard work across time and help them ease their burden of having to lay at the mercy of their ailments.

The grant of free Philhealth coverage on indigent senior citizens would be deemed as a refund on the labor, toil, and faithfulness to the government by dutifully paying their taxes during their heyday.

Hence, under this bill, every indigent elderly, 60 years old and above should be granted free Philhealth coverage.

The immediate passage of this measure is prayed for.
