House Bill No. **3891**

Introduced by **Honorable ERLPE JOHN "PING" M. AMANTE**

EXPLANATORY NOTE

This bill seeks to declare Lantawan Ecopark located in Barangay San Roque and Barangay Crossing, Municipality of Kitcharao, Province of Agusan del Norte as a priority tourism development area and incorporate it in the Philippine National Tourism Development Plan.

The Lantawan Ecopark is nestled on a mountainside overlooking the pristine and expansive Lake Mainit. It hosts a forest reserve and the Regional Wildlife Rescue Center; and within its vicinity is an extensive system of fairly unexplored caves which were found to contain archaeological remains. The Ecopark also has vacant spaces ideal for meetings, incentives, conventions, and events (MICE) facilities. On its base is the lakeshore which can be developed into a water sports center and a jump-off point for island-hopping within Lake Mainit.

In account of these assets, Lantawan Ecopark certainly has the potential to become a prime ecotourism and water sports destination that can propel the tourism industry of Agusan del Norte. This valuation of the Ecopark is further bolstered with the Department of Tourism - Caraga endorsing the concreting of the road leading to the area in the Tourism Road Infrastructure Projects. However, budget limitations at the municipal and provincial levels prevent the provision of support facilities in the area thus the tourism potential is not maximized.

Through this bill, it is hoped that the national government, through the Department of Tourism and the Tourism Infrastructure and Enterprise Zone Authority, will be able to provide technical and funding assistance to the holistic development of Lantawan Ecopark to ensure that its natural beauty and historical assets are preserved and that the socio-economic benefits of tourism are felt by the locals.

Hence, approval of this bill is earnestly requested.
