SIXTEENTH CONGRESS
First Regular Session

HOUSE BILL NO. **4276**

Introduced by Representative EDGAR R. ERICE

EXPLANATORY NOTE

This bill seeks to improve and standardize the quality of the services being delivered by public utility bus operators/companies authorized to engage in business here in the Philippines by compelling these operators/companies to comply with the established standards provided by the International Organization for Standardization.

According to the 2010 Census of Population and Housing conducted by the National Statistics Office, the Philippines has a population of 92.34 million. Given, therefore, the low motorization which is estimated at 9 cars per 1,000 people, bus transport verily plays an important role in the economy by providing an affordable mode of transportation. Concomitant with the essential role of public utility bus companies/operators is their responsibility to observe extraordinary diligence in the transportation of commuting public and ensure their safety.

As aptly described by the Supreme Court, public utilities are privately owned and operated businesses whose services are essential to the general public. They are enterprises which specially cater to the needs of the public and conduce to their comfort and convenience. As such, public utility services are impressed with public interest and concern. The same is true with respect to the business of common carrier which holds such a peculiar relation to the public interest that there is superinduced upon it the right of public regulation when private properties are affected with public interest, hence, they cease to be *juris privati* only. When, therefore, one devotes his property to a use in which the public has an interest, he, in effect grants to the public an interest in that use, and must submit to the control by the public for the common good, to the extent of the interest he has thus created (*Pantranco v. Public Service Commission*, 70 Phil. 221.)

In view of the foregoing, the passage of this bill is earnestly sought.
