**HOUSE BILL NO. \_\_\_\_\_**

---

Introduced by: Hon. Angelina "Helen" D.L. Tan, M.D.

**EXPLANATORY NOTE**

The 2012 Bureau of Agricultural Statistics show that the agricultural sector employs an estimated 12 million people, making up 33 percent of the country's labor force. About 70 percent of the rural poor are farmers and fishermen.

It is unfortunate that the government investment in the sector was only 4 percent of the national budget notwithstanding its contribution of about 11 percent to the country's gross domestic product (GDP) in 2011 where the total government spending on agriculture was almost 24 percent lower than the previous year.

According to the experts, the weak government policies and programs, an excessive' reliance on agricultural imports, and corruption, have taken their toll on the agricultural sector. On the side of education, the average level of education of a farmer is grade five.

This measure, which was originally filed by Sen. Miriam Defensor Santiago, aims to help the agricultural sector by providing social services to dependents of farmers as a gesture of recognition to their sacrifices and a statement to the agricultural sector that the State is serious in providing them with adequate support. It also aims to encourage their children to continue farming and help in the livelihood of the family.

In view of the foregoing, approval of this bill is earnestly sought.
