

Republic of the Philippines
House of Representatives
Quezon City

SIXTEENTH CONGRESS
Second Regular Session

HOUSE BILL NO. : **4933**

Introduced by HON. MARIA JOCELYN VALERA-BERNOS

EXPLANATORY NOTE

It is a constitutionally mandated task of the state to protect and promote the right of all citizens to quality education at all levels and shall take appropriate steps to make such education accessible to all.

Good educational system is a concrete indicator of progress. It is a reflection on how dedicated the government is in fulfilling its duty as enunciated by the fundamental law of the land. It is a manifestation of respect in the highest order on the basic right of every Filipino Citizen. Hence, such must be undertaken and realized in the most effective and efficient manner.

As such, this bill aims to establish a Science High School in Abra which will provide an affordable and quality education to further enhance the level of competitiveness of the abrenians. This institution will cater not only the 300 students currently enrolled under a special science section in Abra High School but also those from the different part of the province who are willing and capable to meet the demands of such institution, which unfortunately cannot be accommodated by the present set up.

In view of the foregoing, approval of this bill is highly and earnestly recommended.
