

Republic of the Philippines

SIXTEENTH CONGRESS
Second Regular Session

HOUSE BILL NO. 5555

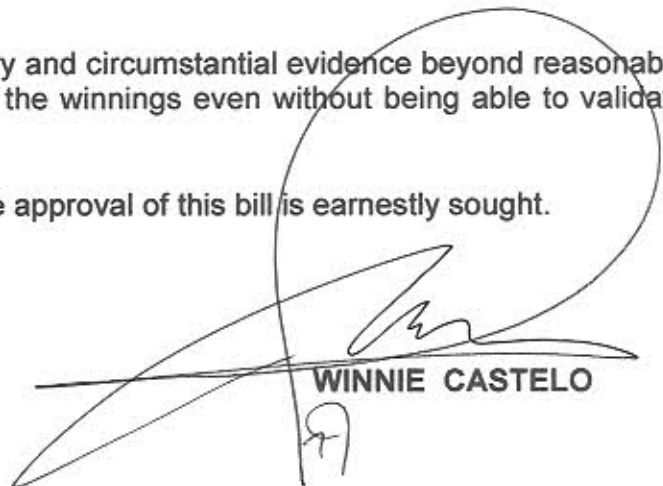

Introduced by Rep. Winston "Winnie" Castelo

EXPLANATORY NOTE

Many Filipinos, in the hope of improving their lot and uplifting their economic situation, turn to the game of chance or lottery. No matter how slim their chances – about one is to a million ratio – still they would hold on to the flimsy likelihood just so they could pin their hope on something. If fate would be kind to them, then regardless of the probability, they would hit jackpot. However, if one actually bought the winning ticket but would be unable to claim his winnings because his ticket had been damaged beyond recognition, then the government would be depriving him of the once-in-a-lifetime chance to change his life. Hence, this bill recommends for PCSO to review its rules and regulations and allow presentation of secondary and circumstantial evidence if the lotto ticket cannot be validated by the machine while maintaining its integrity and freedom from any fraudulent claim.

Hence, upon presentation of secondary and circumstantial evidence beyond reasonable doubt, PCSO is duty bound to award the winnings even without being able to validate the winning ticket.

In view of the foregoing, the immediate approval of this bill is earnestly sought.
