**HOUSE BILL NO. 6235**

---

**Introduced by Congressman Alfredo D. Vargas III**

---

**EXPLANATORY NOTE**

Upon this Representation's consultation with constituents, one of the issues that emerged was the lack of police officers in the country<sup>1</sup>.

The Department of the Interior and Local Government prescribed that the ideal police to population ratio is 1:500. However, the Philippine National Police may not be able to meet this proposed ratio due to budgetary constraints.

This bill, originally filed by former Senator Manny Villar in the 13<sup>th</sup> Congress and highly advocated by my constituents, offers an alternative solution to the problem. It seeks to establish a National Junior Police Force consisting of youth volunteers who will assist regular law enforcers, local officials, and school administrators in the implementation of laws and ordinances.

The bill is expected to strengthen the spirit of volunteerism among the youth. The program provides a training ground that molds our youth to be law-abiding citizens. It also gives them an opportunity to contribute to society and nation building.

In the long run, the proposed National Junior Police may be a good source of future police men as these young people have been exposed early on to the practice of law enforcement.

To further empower our police force and ensure the participation of the youth in maintaining peace and order in the community, the speedy passage of this proposed legislation is urged.
