HOUSE BILL NO. 6276

Introduced by Congressman Alfredo D. Vargas III

EXPLANATORY NOTE

Article XIII Section 7 of the 1987 Philippine Constitution reads:

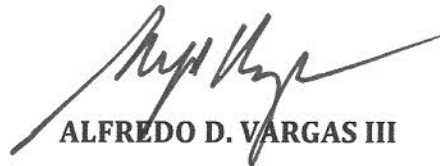

The State shall **adopt an integrated and comprehensive approach to health development** which shall endeavor to make essential goods, health and other social services available to all the people at affordable cost. There shall be **priority** for the needs of the underprivileged, sick, **elderly**, disabled, women and children.

It is therefore a policy of the State to make quality health services accessible to everyone, especially to the underprivileged senior citizens.

Quezon City is home to over 330,000 senior citizens of the country. At present, the city's 15 public hospitals are mandated by its local government to set up a ward exclusively for the elderly so that they will not be inconvenienced by being crammed with other sick patients. But more needs to be done.

This bill¹ seeks to establish a public hospital for the senior citizens of Novaliches, Quezon City to accommodate their medical needs. Through this, we are guaranteeing the efficient and effective delivery of health services to the elderly constituents.

In the light of the foregoing, the immediate passage of this bill is earnestly sought.

ALFREDO D. VARGAS III
