House Bill No. **4559**

Introduced by Representative Wes Gatchalian

EXPLANATORY NOTE

The Philippine Constitution provides that *"The State shall protect and promote the right to health of the people and instill health consciousness among them"*.

Also, Art. XIII, Sec. 11, in particular states that *"The State shall adopt an integrated and comprehensive approach to health development which shall endeavor to make essential goods, health and other social services available to all the people at affordable cost. There shall be priority for the needs of the under-privileged, sick, elderly, disabled, women, and children. The State shall endeavor to provide free medical care to paupers"*.

Consequently, the government must ensure that specialty hospitals (level 3) should be widely distributed geographically across the country being an archipelagic state instead of its concentration in the National Capital Region.

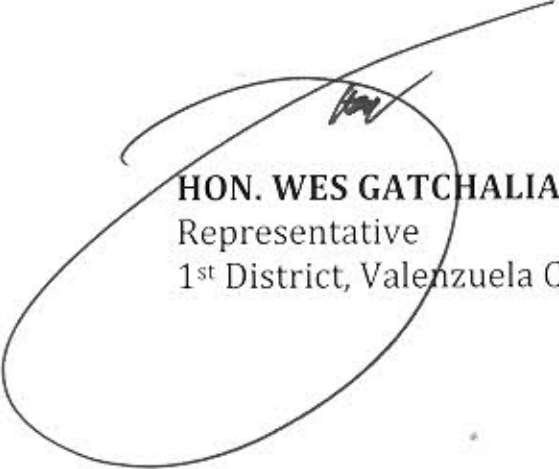

The Philippine Heart Center for one, is a specialty hospital and research center with the most modern facilities and state of the art equipment for heart and related diseases in the country. It has gained the reputations as one of the best Congenital Heart Surgery Centers not only in the Philippines but in the ASEAN Region as well. Yet, its location is not as comprehensive or accessible to many Filipinos in the Visayas and Mindanao.

In a country such as the Philippines, which is archipelagic in nature, the concern of decentralizing the national government from the National Capital Region should be addressed. Concomitantly, through the establishment of public specialty hospitals, particularly the Philippine Heart Center in Visayas

and Mindanao, we can address the needs of less fortunate citizens who are given the additional burden of travelling to Metro Manila.

This bill therefore seeks to address the noticeable disparity in terms of hospital locations by establishing its facilities in the Visayas and Mindanao to improve the much needed medical care and services across the country thereby giving hope to every Filipinos wherever situated.

The immediate passage of this bill is therefore earnestly sought.
