HOUSE BILL NO. **5076**

Introduced by Representative Florida P. Robes

EXPLANATORY NOTE

With the present state of traffic, not only in Metro Manila, but also in almost all the cities in the country, appropriate measures must be taken in order to mitigate this crisis that affects people's mobility. One possible reason is that there is no effective mechanism to ensure that all drivers have valid license and all vehicles are registered. Unfortunately, many of our motorists and drivers avoid the process of going through license application. If they can get away with it, they will go on driving without a license or no car registration. It could be that license issuance offices of the Land Transportation Office are remote or not available in their location. In order to ensure that people follow various transportation laws, rules and regulations, there is a need to make the service accessible to them and to promote safety and comfort in land travel. This is the primary objective of this proposal: to make the application for driver's license or car registration convenient and accessible to the residents of the City of San Jose Del Monte.

Possessing a valid driver's license or having your car registered will not only give a person the privilege to traverse roads, highways and streets for easy mobility anytime or anywhere in the country where the license is valid, but will also help the government regulate and monitor unscrupulous individuals who might create havoc by driving without a license or using unregistered vehicle. Considering this, the undersigned requests the immediate approval of the Bill.
