HOUSE BILL NO. **5116**

Introduced by Representative Florida P. Robes

EXPLANATORY NOTE

The Igay-Montalban Provincial Road in the City of San Jose del Monte is an 11.4 kilometer stretch to roadway starting from Barangay Sto. Cristo and traversing through the four Agrarian Reform Communities (ARCs) of Barangays Kaybanban, San Roque, Paradise III and San Isidro. At present, this roadway is being utilized in the transportation of people and agricultural products and services coming from these mountain barangays to the center of the City of San Jose del Monte via Quirino Highway. It also serves as an alternative access to land transportation to and fro the Municipality of Rodriguez in the Province of Rizal.

The proposed conversion will play a pivotal part in the realization of all local governance initiatives that will push for the economic development of the SJDM City by providing an alternative transportation network. Considering that the other needs of the constituents must be responded to, funding from the national government in the upgrading, improving and maintaining these roads would be a great help in developing the said city and in encouraging economic activities to flourish.

Along this line, the approval of this road conversion bill is earnestly sought.
