

Republic of the Philippines
HOUSE OF REPRESENTATIVES
Quezon City

Seventeenth Congress
First Regular Session

HOUSE BILL NO. **5140**

Introduced by Honorable Gerald Anthony "Samsam" V. Gullas, Jr.

EXPLANATORY NOTE

This bill seeks to convert the Talisay District Hospital in Talisay City, Province of Cebu into a medical center to be known as the Talisay Medical Center, a tertiary hospital with additional specialties as Trauma, Physical and Rehabilitation Medicine, and Sports Medicine center in the Visayas under the supervision of the Department of Health.

Section 11 of Article XIII of the 1987 Constitution provides:

"SEC. 11. The State shall adopt an integrated and comprehensive approach to health development which shall endeavor to make essential goods, health and other social services available to all the people at affordable cost. There shall be priority for the needs of the underprivileged sick, elderly, disabled, women, and children. The State shall endeavor to provide free medical care to paupers."

Initially, the hospital was envisioned to provide health services to the twenty-two densely populated barangays of Talisay City, the neighboring Municipality of Minglanilla and the City of Naga, which are part of the First District of the Province of Cebu, and also the accessible barangays of Toledo City. However, patients from other neighboring municipalities and cities of Cebu and provinces of Negros and Bohol, and sometimes patients from as far as Luzon and Mindanao, are also seeking medical attention in Talisay District Hospital.

In consideration of its strategic location, and being the favored destination of various sports enthusiasts, the hospital serves as the immediate health facility for trauma, sports injuries, vehicular accidents

and the like. Due to inadequate resources, however, such as human resource complement, medical equipment and other facilities, about 1,119 trauma cases were referred to the Vicente Sotto Memorial Medical Center in Cebu City in 2011 and 2,083 trauma cases from January 1 to June 30, 2012.

In the Philippine Hospital Development Plan of the Department of Health, the Talisay District Hospital is envisioned to become a tertiary hospital with additional specialties as Trauma, Physical and Rehabilitation Medicine, and Sports Medicine Center in the Visayas.

The proposed Talisay Medical Center as a tertiary hospital can provide better health services that will greatly benefit the people, not only in Talisay City but also of the neighboring areas of the southern part of the Province of Cebu and other areas in the Visayas. The hospital will be able to address the health needs of the most marginalized sector of the community.

In view of the foregoing, approval of this bill is earnestly sought.
