HOUSE BILL NO. **5284**

Introduced by Honorable Mark O. Go

EXPLANATORY NOTE

This bill seeks to convert **Cariño St. - Queen of Peace road** into a national road.

Efficient roads networks are fundamental in sustaining a vibrant local economy. Roads bring in investments, which in turn generates employment. Baguio, being a Highly Urbanized City, and commonly referred to as the *Summer Capital of the Philippines*, is a center of business, trade, education and tourism in the Cordillera Administrative Region. As such, the maintenance of the city's roads networks is crucial to the local economic development not just of the city but of the greater regional area as well. With a steady increase of visitors since 2011, ensuring the reliability of the city's roads is of urgent need.

In converting the **0.308 km-long and 6 m-wide Cariño St. - Queen of Peace road** into a national road, the responsibility of maintenance and improvement would be transferred to the national government through the Department of Public Works and National Highways, allowing the local government of Baguio to channel funds earmarked for the maintenance of the said road to other local development programs. This will ensure that growth and development would not be concentrated merely on the areas traversed by the said road, but aptly spread across the city. The expected increase in economic activity in the city and the improvement of other socio-economic indicators among its population brought forth by the conversion of the said road shall naturally redound to the benefit of the national government.

In view of the foregoing, the immediate approval of this bill is earnestly sought.
