HOUSE BILL NO. 5524

Introduced by: **REPRESENTATIVE SHERNEE A. TAN**

EXPLANATORY NOTE

The framers of the 1987 Constitution explicitly mandate the State to assign the highest budgetary priority to education and ensure that teaching and non-teaching positions in the public sector will attract and retain its rightful share of the best available talents through adequate remuneration and other means of job satisfaction and fulfillment.

During the pre-Martial Law era, public school teachers were one of the highly regarded employees of the government. They received very decent pay that they could afford to send their children to exclusive schools and could even build bigger houses. But at present time, the teaching profession has been associated with vending *tocinos*, *longganisas* and other commodities to augment their incomes.

The government therefore must provide a decent and adequate compensation to public school teachers and non-teaching personnel commensurate to their valuable contributions in nation-building by upgrading their present salary grades in order to alleviate their standard of living and be able to cope with the high-rocketing cost prime commodities.

This bill therefore, seeks to upgrade the salary grade of public school teachers and non-teaching personnel in the elementary and secondary school levels from Salary Grade 11 to Salary Grade 18 and from Salary Grade 1 to Salary Grade 9 respectively.

The foregoing reasons warrant the approval of this bill.
