AN ACT

QUEZON CITY GENERAL HOSPITAL AND MEDICAL CENTER,
AMENDING FOR THIS PURPOSE
REPUBLIC ACT NOS. 537 & 6548

EXPLANATORY NOTE

The Quezon City government maintains a five-storey, 250 bed capacity tertiary hospital named Quezon City General Hospital. Recently, the hospital had gone through a redevelopment program for the purpose of modernizing its healthcare facilities. Now, the hospital is equipped with modern and state of the art medical facilities such as 4D ultrasound, colposcope with LEEP, ECG machines, computerized radiography and digital fluoroscopy system, and 64-Slice Computerized Tomography Scanner (CT scan). The hospital also has five operating suites, one operating room suite with a deck view used by residents and nurses undergoing training, eight-bed Service Case and six-bed Pay Medical Intensive Care Unit (ICU) equipped with patients' monitor and a central monitor, and 10-bed Post Anesthesia Care Unit and four-bed Surgical Intensive Care Unit, to name a few. Its patients, especially the poor, enjoy better and more effective healthcare.

Through the years, the hospital has evolved into a modern hospital, achieving Level III Status as Tertiary Hospital, the highest level license that can be conferred to a hospital by the Department of Health. With its status, accomplishments and modern medical facilities, the hospital deserves to be called "Quezon City General Hospital and Medical Center".

Support on this bill is earnestly sought.
