HOUSE OF REPRESENTATIVES
H.B. No. 5942

Introduced by Representative H. Harry L. Roque Jr.

EXPLANATORY NOTE

The development of proprietary economic information is an integral part of a nation's commerce. Its development, protection and lawful exchange are essential to the competitiveness of critical segments of Philippine business and industry.

The theft, misappropriation and wrongful use of Philippine proprietary economic information by foreign governments and their agents or instrumentalities can cost our economy millions of pesos each year. Existing laws do not give adequate protection to proprietary economic information.

This bill seeks to prevent economic espionage. It also seeks to advance the development and lawful use of Philippine proprietary economic information by protecting

such information from theft, wrongful destruction or alteration, misappropriation and conversion by foreign governments and their agents or instrumentalities.*
