SEVENTEENTH CONGRESS
Second Regular Session

HOUSE BILL NO. 5947

Introduced by Representative Florida P. Robes

EXPLANATORY NOTE

Investment in education should be on top of the priorities of the government because it plays a key role in human, social and economic development. Local, national and international laws, covenants and agreements stress the importance of education in addressing poverty issues as well as in providing employment opportunities, better health and participating in the political process. In fact, it is said to be essential to the success of every one of the Seventeen Sustainable Goals. Goal No. 4 specifically aims to "ensure inclusive and equitable quality education and promote lifelong learning opportunities for all."

According to experts, there has been great achievement in education, after the conclusion of the Millennium Development Goals which sought to achieve universal primary education. Since the gains achieved must be protected, the new set of development goals did not limit its target to primary education. Rather, it encompasses secondary and tertiary education.

Relative thereto, the establishment of a secondary school in Barangay Francisco Homes-Mulawin will supplement the existing elementary school catering to at least three composite barangays: Fransciso-Home Guijo, Francisco Homes-Narra and Francisco Homes- Yakal. The four barangays have a total population of approximately thirty thousand. As such, the establishment of this high school will pave way to our efforts to achieve inclusive and equitable quality education.

Premises considered, the passage of this Bill is earnestly sought.
