

Republic of the Philippines
House of Representatives
Quezon City

SEVENTEENTH CONGRESS
Second Regular Session

HOUSE BILL NO. **5981**

Introduced by Representative EDGAR R. ERICE

EXPLANATORY NOTE

The bill seeks to make the services of our legal system accessible to the poor, in consideration of their financial handicap and low station in life

Justice delayed is justice denied, as the saying goes. Slow dispensation of justice to the masses and common people seemed to be a costly commodity.

Persons aggrieved with physical harm on their life and limb or persons deprived of their property belongings opted to keep quiet, either for lack of information to pursue a case or simply lack financial capacity to do so.

Considering that the law applies to all, regardless of status in life, sex, status, nationalities, profession, religion, and standing in our respective communities, justice seems to be an expensive commodity limited to the highest bidder. Justice therefore becomes costly and scarce if the litigants are the have "nots" in comparison to the wealthy and affluent litigants.

The weight of justice is not balanced. The result, as always, tilts to the influential and moneyed individuals and poor litigation are always on the losing end. In this connection, the establishment of circuitized, compact and accessible court houses, judicial building and the attached component of prosecution and probation offices, detention centers, as well as the other attached agencies needed basic people services.

Justice should be made affordable to the ordinary people-specially the have nots. Justice belongs to the people not to the privileged few. And most importantly justice should be served fast and swift.

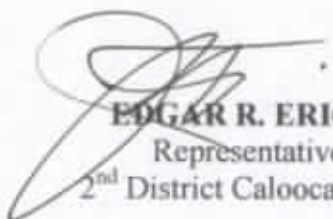

The creation of additional judicial building and or judicial complexes, to better serve the common "tao" or the masses, the highest degree of which can be achieve, through the increase of judicial establishments in different provincial capitals, metropolitan cities and other municipal component cities.

The services to be offered by the creation, building and establishment of numerous judicial buildings and complexes will be for the benefit of the people for their rights are amply protected which in return creates stability, peace, and improved order establishing an environment conducive to the pursuit of business and safe practice of professions resulting to a thriving economy and prosperity.

Peace through justice, is only achieved through a carefully crafted and designed judicial system which would only be achieved through establishment of judicial building in the conspicuous places within the country with the ultimate purpose of decongesting backlogs in the judiciary for expeditious dispensation of justice.

Finally, as the saying goes "justice for all or none at all", can only be achieved by the creation of laws mandating the establishment of more judicial building in the conspicuous places within the country with the ultimate purpose of expeditious dispensation of justice.

In view of the foregoing, the passage of this bill is earnestly sought.
