HOUSE BILL NO. 7059

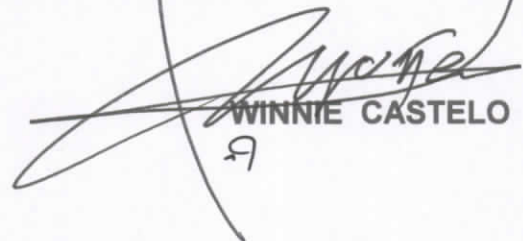

Introduced by Rep. Winston "Winnie" Castelo

EXPLANATORY NOTE

Home to scores of natural disasters such as typhoons, earthquakes, volcanic eruptions, and tsunamis, the Philippines would do well to have decent evacuation havens in strategic locations to provide refuge to those fleeing from such natural calamities. The situation in Albay, where the evacuees from communities around Mayon are housed either in school buildings or gymnasiums should jolt the national government to one imperative: Construct permanent evacuation centers. School buildings and gymnasiums were not built to serve the purpose and only aggravate the plight of evacuees in the long run.

Permanent evacuation facilities should alleviate the sorry condition of the victims and provide a safe haven until they resume their normal lives.

The immediate passage of this timely measure is most earnestly sought.
