EXPLANATORY NOTE

Clean and potable water is a necessity in order to sustain life. The Department of Health is gearing towards its target of providing the needed proper sanitation facilities. However, due to the present population increase and the increase in the demand of clean water supply, there are still a substantial number of our fellow countrymen who lacks access to clean water.

The purpose of this bill is to establish a program for the construction of clean drinking water supply system in every barangay specially on those places where poverty and health problems are critical.

Hence, this proposal is submitted for consideration.
