EXPLANATORY NOTE:

As a manifestation of support to this timely piece of legislation, this representation respectfully refers this bill, which has constantly been receiving support from the past and present (Rep. Castelo's HB7372) congress.

Informal settlements in Metro Manila have existed for a long time. Various local government units have exhausted several measures to address this problem through relocation. That measure did not suffice in alleviating the poor living conditions experienced by informal settlement families (ISFs). For some, it further exacerbated the situation of various ISFs by relocating them to far communities that entail them to spend more on public transportation in order reach their current workplace or relocating their domicile to hazardous areas.

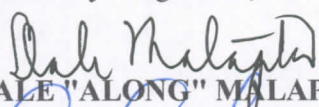

The intention of the Rental Subsidy Program is to grant ISFs financial assistance in order to immediately urge them to relocate to a safer domicile and merge with the mainstream populace of the city. The said program also aims to elicit growth in local economy and urban planning for the housing business will be more lucrative. The measure can readily be implemented for the DSWD has already provided financial assistance amounting to P8.5M to 485 ISFs from Cavite, Laguna, Pandi, Bulacan, Pasay City, and Tondo, Manila back in 2016.¹ The role of the government will be to lay out a clear cut policy on the delineation and extent of the subsidy to effect an equitable rental assistance.

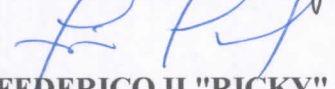

In view of the foregoing, the passage of this measure is earnestly sought.
