EXPLANATORY NOTE

Art. 15 Sec. 1 of the 1987 Philippine Constitution provides;

"The state recognized the Filipino family as the foundation of the nation. Accordingly, it shall strengthen its solidarity and actively promote its total development", since family is considered as the foundation of the nation and the basic of society, it is the state's responsibility to protect its welfare.

Strong families ensure that their young children receive adequate food, shelter and medical certification and also ensure that children live in a safe and stimulating environments in which to explore and learn. Factors such as poverty, low education and family stress can compromise family relationship by limiting opportunities for stimulation and responsive instructions within the family.

Family resource and support programs are designed to ensure that families are able to meet their needs and overcome stressors that may impair family development. It will also enable families to function more effectively and to provide a nurturing environment that will foster the health development of every member of the family and the nation as whole.

Hence, this proposal is submitted for consideration.
