**AN ACT
INSTITUTIONALIZING THE NATIONAL ECONOMIC AND DEVELOPMENT
AUTHORITY AS THE INDEPENDENT ECONOMIC AND PLANNING AGENCY
OF THE PHILIPPINE GOVERNMENT, DEFINING ITS FUNCTIONS AND
AMENDING EXECUTIVE ORDER NO. 230 SERIES OF 1987, AS
AMENDED, APPROPRIATING FUNDS THEREFOR,
AND FOR OTHER PURPOSES**

Explanatory Note

The vision of this landmark legislation is to instill a culture of planning in the formulation and implementation of the country's economic and development policies – and emphasizes the importance of participatory planning by expanding stakeholder participation through various stages.

The Act institutionalizes the National Economic and Development Authority (NEDA) as a lead integrator of economic development programs and policies to achieve the following objectives: (1) facilitate the planning, collaboration, and coordination among the relevant government agencies; (2) improve access to national program information, data, and funding opportunities, support research of leading edge, world class economic development practices and information dissemination efforts; (3) ensure that economic resources are aligned and invested in support of identified and well-defined timely strategies and projects in non-duplicative activities; (4) encourage strategic investments that strengthen competitiveness and foster job creation; (5) promote energy independence, help fight poverty and build prosperity for the greatest number of Filipinos; and, (6) produce transformational economic diversification and workforce development outcomes for our country's long-term sustainable economic future.

It seeks to institutionalize a new and truly independent department that will implement long-term, continuing, integrated, and coordinated programs and

policies for national development. It will also enhance decentralization and strengthen the autonomy of units within the various regions of the country to accelerate their economic and social growth and development. Distressed communities will thus be empowered to revitalize, expand, and upgrade their physical infrastructures to attract new industries, encourage business expansion in the countryside, diversify local economics, and generate or retain long-term private sector jobs and investments.

This is the House counterpart of the Senate Bill of Senator Sherwin Ting Gatchalian. The passage of this legislation is earnestly sought.

Hon. ARTHUR C. YAP
