

Republic of the Philippines
HOUSE OF REPRESENTATIVES
Quezon City

SEVENTEENTH CONGRESS
Third Regular Session

House Bill No. 8361

Introduced by Representative **John Marvin "Yul Servo" C. Nieto**

Explanatory Note

As a manifestation of support to this timely piece of legislation, this representation respectfully refiles this measure, which has constantly been receiving support from the past and present Congress.

Article 11, Section 16 of the 1987 Constitution states that:

"The State shall protect and advance the right of the people to a balanced and healthful ecology in accord with the rhythm and harmony of nature."

Improper disposal of electronic devices poses a great deal of hazard to humans and the environment as such devices contain a surplus of toxic chemicals (e.g. lead, cadmium, and mercury, to name a few). Proper E-waste management will greatly reduce the amount of hazardous materials being discarded in solid waste management facilities.

The proposed measure seeks to promote a balanced and healthful ecology and also promote the right to health of the people and instill health consciousness among them by prohibiting the disposal of electronic devices at solid waste management facilities. Such prohibition aims to also promote and strengthen proper E-waste management and practices in the country.

In view of the foregoing reasons, immediate approval of this measure is earnestly sought.
