(1) Facilitate the planning, collaboration, and coordination among the relevant government agencies;

(2) Improve access to national program information, data, and funding opportunities, support research of leading edge, world class economic development practices and information dissemination efforts;

(3) Ensure that economic resources are aligned and invested in support of identified and well-defined timely strategies and projects in non-duplicative activities;

(4) Encourage strategic investments that strengthen competitiveness and foster job creation;

(5) Promote energy independence, help fight poverty and build prosperity for the greatest number of Filipinos; and

(6) Produce transformational economic diversification and work force development outcomes for our country's long-term sustainable economic future.
