8622
House Bill No. _____

Introduced by Representative **John Marvin "Yul Servo" C. Nieto**

EXPLANATORY NOTE

As a manifestation of support to this timely piece of legislation, this representation respectfully refiles this bill, which has constantly been receiving support from the past and present Congress.

The proposed measure seeks to mandate the one way traffic flow along both sides of EDSA. It is the belief of this representation that this has become necessary as traffic congestion in EDSA continues to worsen despite the different remedies introduced to address the issue.

In order to ensure the success of this scheme, the proposed measure empowers the MMDA to choose a counterpart/s thoroughfare that will form part of a traffic loop in which EDSA is a significant part thereof to be known as the Metro Loop.

In this light, the passage of this bill is earnestly sought.
