House Bill No. 9079

INTRODUCED BY Rep. GREG G. GASATAYA

EXPLANATORY NOTE

Art. II, Sec. 15 of the 1987 Constitution states that *“The State shall protect and promote the right to health of the people and instill health consciousness among them.”* Furthermore, Art. XIII, Sec. 11 of the same further emphasizes that *“the State shall adopt an integrated and comprehensive approach to health development which shall endeavor to make essential goods, health and other social services available to all the people at affordable cost. There shall be priority for the needs of the underprivileged, sick, elderly, disabled, women and children. The State shall endeavor to provide free medical care to paupers.”* Pursuant to the provisions of the Constitution, the government must continuously exert efforts in ensuring quality and accessible healthcare for its people.

The City of Bacolod is one of the highest populated cities in the country which serves as capital city of the province of Negros Occidental. With a population of 561,875 residents as per the 2015 census, it is the most populous city in the Western Visayas and the second most populous in the entire Visayas, next to Cebu City.

Despite the existence of a good number of hospitals in the city, the state of public healthcare has become one of the pertinent points of discussion among the city’s residents and public officials as private hospital services are not as affordable and there is only one hospital, the Corazon Locsin Montelibano Memorial Regional Hospital (CLMMRH), that serves as the sole end referral hospital for poor and indigent residents of Bacolod City. As the lone tertiary premiere government hospital in the entire province of Negros Occidental, the CLMMRH, with a bed

capacity of only 400 and average daily census of 724, not only caters to the 561,875 residents of Bacolod City but also to the hundreds of thousands of residents of cities and municipalities in the province.

This bill seeks to establish a government-owned district hospital in the City of Bacolod, Province of Negros Occidental as a proactive measure to prevent the overcrowding of the CLMMRH and to provide an avenue for public healthcare that is exclusive to the Lone District of Bacolod.

In view of the foregoing, passage of this bill earnestly sought.
