House Bill No. 5508

Introduced by Representative **GERALDINE B. ROMAN**

“AN ACT
TRANSFORMING THE DEPARTMENT OF AGRARIAN REFORM INTO
“DEPARTMENT OF AGRARIAN REFORM AND RURAL DEVELOPMENT”
MANDATING ITS FUNCTIONS, OPERATIONALIZING THE 2ND PHASE OF
CARP IMPLEMENTATION, PROVIDING FUNDS THEREFOR AND FOR
OTHER PURPOSES”

Be it enacted by the Senate and the House of Representatives of the Philippines in Congress assembled:

Section 1. – Chapter III, Republic Act 6398, Book IV, Title XI, of Executive Order No. 292, (The Administrative Code of 1987) and Executive Order No. 129-A, is hereby amended to read as “Agrarian Reform and Rural Development”. All reference under this law pertaining to the Department of Agrarian Reform shall henceforth be transformed into the “Department of Agrarian Reform and Rural Development” (DRD).

Section 2. – Section 2 of Republic Act No. 6657, as amended, is hereby further amended to read:

“Section 2. **Declaration of Principles and Policies** – The promotion of social justice in all phases of national development is the primordial responsibility of the State, which includes the commitment to create economic opportunities based on freedom of initiative and self-reliance. Corollary thereto, the State is cognizant that a large portion of agricultural lands are still subject for coverage and distribution was halted due to the limited time frame impose in the completion of land acquisition and distribution and the termination of the issuance of Notice of Coverage (NOC) on June 30, 2014.

In line with this, the State recognizes that the agrarian reform program is an effective tool for social equity strategy in ensuring participative and broad-based growth among the marginalized and rural sector. It promotes optimizing the productive potentials of the

1 agricultural sector and in alleviating poverty and curtailing
2 lawlessness in the countryside through equal access to productive
3 assets like land, provisions for necessary support services packages
4 to its beneficiaries and marketing assistance of produce from
5 awarded lands. The gains and momentum so far achieved in the
6 implementation of the agrarian reform program is stymied and would
7 be rendered nugatory considering that the vital component in its
8 implementation ceased due to the statutory timeline imposed on the
9 issuance of Notice of Coverage (NOC) and where the remaining
10 substantial area of agricultural lands, other than private agricultural
11 lands, have not yet been covered by the program. Thus, and as
12 mandated by the Constitution, the State is duty-bound to take an
13 aggressive stance in the continued implementation of the agrarian
14 reform program. Accordingly, it is imperative to statutorily
15 institutionalize a mandate for the continued issuance of Notices of
16 Coverage and the inclusions of other agricultural lands which are
17 actually and directly cultivated by landless farmers.

18
19 The State further recognize the diminishing area of private
20 agricultural lands for coverage under the agrarian reform program,
21 accordingly and invoking the inherent power of the State, it is
22 imperative to extend and broaden the scope of coverable agricultural
23 lands for distribution under this Act, particularly the inclusion for
24 coverage and distribution of government-owned lands and such other
25 similar types of lands where there are actual and direct cultivators
26 therein and whose rights have not yet been recognized and had not
27 been confirmed accordingly.

28
29 In realization therefore, a second phase of the implementation
30 of agrarian reform program should be institutionalized statutorily by
31 mandating the issuance of Notice of Coverage on all remaining
32 private agricultural lands in excess of five (5) hectares until fully
33 completed, and to include in the acquisition and distribution pursuant
34 to this Act other qualified government owned lands which are devoted
35 to or suitable for agricultural production and where there are actual
36 cultivators therein.

37
38 The rights of landowners to just and fair compensation of their
39 lands covered under this Act, as well as investment assistance and
40 provisions of incentives towards entrepreneurship, shall at all times
41 be given utmost consideration in the implementation of this Act.

42
43 The State is cognizant of the indispensable role of the
44 Barangay Agrarian Reform Council (BARC) which shall henceforth be
45 named Barangay Agrarian Reform and Rural Development Council
46 (BARRDC) as the basic unit equipped with institutional information at
47 the grassroots or local level. The role of the BARRDC in the entire
48 process of the implementation of this Act as well as in the alternative

1 resolution of agrarian-related conflict is imperative to accelerate the
2 commencement and completion of the second phase of agrarian
3 reform program. Hence, there is a need to revitalize and strengthen
4 the BARRDC by enabling it with corresponding organizational role,
5 function and authority and the provision of budgetary allocation for its
6 operation, as may be determined by the Presidential Agrarian Reform
7 Council (PARC), which shall henceforth be named Presidential
8 Agrarian Reform and Rural Development Council (PARRDC).

9
10 The State moreover recognize the indispensable role of the
11 private sector, encouragement of private enterprise, provision of
12 incentives for necessary investments requirements, and trade policies
13 that serves the general welfare and utilization. In pursuance
14 therefore, all forms of agribusiness arrangements or agreements of
15 exchange with private enterprises, investors, Provided, it is based on
16 equality and reciprocity that is aimed for increased agricultural
17 productivity and income of all stakeholders of agrarian reform
18 program, as may be approved and determined by the DARRD, are
19 sanctioned by the State. The potential produce of the lands awarded
20 to beneficiaries of agrarian reform program or the Title of ownership
21 may be the subject of collateral for loans with private financing
22 institution subject to certain limitations as may be provided by law.

23
24 The State acknowledge that the provision of support services to
25 agrarian reform beneficiaries is critical to the success and
26 sustainability of the program. The incorporation in the mandate on the
27 provision of social protection services, health insurance, educational
28 assistance and housing facilities to qualified agrarian reform
29 beneficiaries were identified as among the component provisions of
30 support services to ARBs beneficiaries.

31
32 The success and sustainability of the agrarian reform program
33 is determined by the increased productivity and economic growth of
34 beneficiaries, and the maintenance of awarded land ownership within
35 the beneficiaries or its immediate family members subject to
36 qualification criteria set forth under applicable laws. The
37 transferability of awarded lands outside of the immediate family
38 members of the beneficiary, is restricted.

39
40 It is further the mandates of the State to sustain rural
41 development along with the implementation of agrarian reform
42 program. Corollary therefor, the mandates of the DARRD needs
43 parallel track geared towards rural development, particularly on areas
44 where land distribution are completed.

45
46 Incorporating rural development on Land Acquisition and
47 Distribution (LAD) free area is primarily the key component in
48 preserving the gains that were derived in the implementation of

1 agrarian reform program. Towards this end, the State shall utilize
2 such tangible gains as platform to rural development.

3
4 In realization, the DAR shall be transformed into a body that
5 shall lead in the implementation of agrarian reform program in
6 conjunction with rural development on LAD-free declared areas.

7
8 The State furthermore recognizes the manpower resources
9 required to fully accelerate the completion of the agrarian reform
10 program and subsequent infusion of rural development. In recognition
11 therefore, there is a need to strengthen and expand the Department
12 of Agrarian Reform and Rural Development (DARRD) by
13 complementing strategic offices that are vital and necessary to carry-
14 out the implementation of this Act.

15
16 Thus, it is imperative to transform and strengthen the DAR into
17 Department of Agrarian Reform and Rural Development.

18

20 hereby further amended to read:
